The Dynamic Compression Sector (DCS) / Washington State University at Argonne National Laboratory, Lemont, IL, seeks a highly motivated and capable Technical Assistant to support hands-on experimental work in a fast-paced, research environment.

Wage is $16.00 per hour. Part-time hours during the semester, potential for full-time hours in the summer.

**Duties:**

- Assist the DCS staff in conducting dynamic compression experiments and maintenance of experimental facilities.
- Maintain cleanliness, organization and inventory of supplies in various laboratories and experimental areas.
- Use 3D modeling software to design parts to be created using additive manufacturing or machining techniques.
- Opportunities to train and work on machining equipment including milling machine, band saws and various bench-top machines.

**Qualifications:**

- Training will be provided for specific equipment; however, hands-on experimental background, and an excellent mechanical aptitude are preferred.
- Reliability, attention to detail and safety are important elements of this work.
- Follow directions accurately, and work with minimal supervision.
- Ideally, this position will be filled by an undergraduate student with a major in a technical field, such as engineering or the physical sciences.

**Apply:**

Submit a cover letter, resume, and contact information for three professional references to Robert Zill via email: dcs.admin@wsu.edu.
